Bonn, 24<sup>th</sup> November 2009  
Eli/wi

**Approval of a dryblend formulation for plastic window profiles according to RAL-GZ 716/1, section I, part 1, dryblend formulation: 1330/003 (CaZn) for severe climate S, production-site: Hooglede-Gits**

Dear Mrs. Haesen,

we have received the positive test report no. 89537/09 dated 10<sup>th</sup> November 2009 for CHARPY V-notch impact strength, weathering fastness, weathering resistance, thermostability and fire behaviour as well as the positive test reports no. 80809/1.1, -1.2, -1.3 dated 3<sup>rd</sup> November 2009 for testing of the profiles incl. fire behavior. You may now use your formulation

**1330/003 (CaZn)**

to produce window profiles that carry the RAL-quality mark in your production site of

**Hooglede-Gits**

The profiles have to be marked with the letter "S" for severe climate.

Please contact us in case of questions.
